

Built to Run.....

B&R VENTURES

Conventional Liquid Filler (Rinsing - Filling - Capping)

About us

B&R VENTURES is a dedicated Indian brand committed to providing cost-effective, high-quality packaging solutions for the FMCG sector, Pharmaceutical, Rigid packaging, Flexi packaging, R-PET and all types of Industrial Equipment.

Our dedicated team in India specializes in:

- **SALES** - With a strong pan-India presence, our sales professionals ensure, economical solutions, timely response, solution-oriented consultations, and seamless coordination with after-sales teams for end-to-end client support.
 - » **Project Evaluation:** – Comprehensive assessment of client needs like feasibility report, site survey, project consultation and production goals.
 - » **Customized Product Design:** – We design the product that is Tailor-made to suit specific product, primary packaging, and line requirements.
 - » **Production Upscale** – Our team helps you to upgrade the existing lines and implement systems to improve line efficiency.
- **AFTER-SALES**
 - » **Installation & Commissioning** – Our expert team ensures seamless handling from material unloading to production start-up, all within the committed timeline.
 - » **Technical Training & Support** – We provide comprehensive training to technical staff and operators to ensure smooth and efficient operations.
 - » **Spare Parts** – We provide quick delivery with our readily available spare parts Inventory in Bangalore to minimize downtime.
 - » **Service and Tailored AMC Scheme** – B & R offers structured Annual Maintenance Contracts and responsive service plans to ensure consistent performance, reduced breakdowns, and long-term equipment reliability.

Wide Range of Applications

Beverages

Water, Fruit juice, Tea, CSD drinks,

Dairy drinks, Milk, Yogurt, etc.

Solutions

Aseptic Filler	03
Hot Filler	05
CSD Filler	07
Water Filler	09
Ultra-clean / Cold Chain Filler	11
Large Bottled Water Filler.....	13

Aseptic Filler

Applicable Products: Juice, Tea Beverages, Protein Drinks, Dairy Products, etc.

Filling Temperature: Room Temperature

Capacity Range: 6,000 – 36,000 BPH

Filling Valve: Electronic Flow Meter Valve

NO.	Model	BPH(500mL/bottle/h)	PC(kw)	Size(mm)	Weight(kg)
1	WGDXGF18-18-18-6	6000	20	6500×3200×3500	12000
2	WGDXGF20-32-32-10	13000	32	8500×3600×3500	18000
3	WGDXGF50-50-40-12	16000	34	9600×4000×3500	24000
4	WJG80-80-70-65-18	36000	44	11500×9500×4000	40000

Hot Filler

Applicable Products: Juice, Tea, Functional Drinks, Protein Drinks, Pulp Beverages (with fibers/flocculent substances)

Filling Temperature: 85 – 88°C

Capacity Range: 10,000 – 36,000 BPH (500ml)

Applicable Bottle Sizes: 200ml – 2000ml

Filling Method: Mechanical Valve, Electronic Flow Meter Valve

NO.	Model	BPH(500mL/bottle/h)	PC(kw)	Size(mm)	Weight(kg)
1	RXGF32-24-8	10000	3	3200×2250*2300	7000
2	RXGF32-32-8	12000	4	3500×2800*2300	8000
3	RXGF40-40-10	15000	5	4500×3000*2300	10000
4	RXGF50-50-12	18000	7.5	5200×3200*2300	12000
5	RXGF72-60-15	36000	11	6500×3500*2300	15000

CSD Filler

Applicable Products: Premium Carbonated Mineral Water, Carbonated Soda, Cola, Sprite, Carbonated Juice

Production Capacity: 7,000 – 24,000 BPH (500ml)

Filling Principle: Isobaric Filling

Applicable Bottle Sizes: 200ml – 1500ml

Filling Method: Isobaric Mechanical Valve, Electronic Flow Meter Valve

NO.	Model	BPH(500mL/bottle/h)	PC(kw)	Size(mm)	Weight(kg)
1	DXGF24-24-6	7000	3	3000×2250*2300	6000
